The COVID-19 pandemic has resulted in major disruption in the delivery of public services across the Caribbean and globally. This has necessitated the need to re-think and re-imagine public service delivery systems in the context of uncertainty during the current pandemic and beyond.

In this webinar, we will be exploring how Scenario Planning can be used as a tool for adaptively repositioning public sector organisations and service delivery. Our guest presenter will be Mr. Shawn Grey J.P.- Chief Technical Director, Performance Monitoring and Evaluation Unit, Office of the Cabinet, Jamaica.
